DETAILED ACTION

Response to Remarks

1. Applicants' arguments, filed on 9/9/04, have been entered. They have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either newly applied or reiterated. They constitute the complete set presently being applied to the instant application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4, 7, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Kawai et al.

Applicants argue that the reference does not teach the polymer of part 2 because Table 1 does not show polymer comprising an unsaturated bond. This is not convincing because the polymer comprises monomer which are composed of bases and ribose ring. Said bases comprise unsaturated bonds. Further Table 1 shows a BioM4 where a polymer is composed of 4 thymine bases bounded to the 5'end of the nucleic acid which is viewed to be inclusive of the degree of polymerization of the polymer being not less than 3 and not more than 100.

Art Unit: 1637

3. **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
